

# Plastic spirals KW

## KW

Plastic helix made of polyethylene.  
Protects wiring harnesses, wires and lines.  
Bundles and binds single wires and provides mechanical protection for loosely installed or moving cables and lines.

## Material

Polyethylene  
Colour: transparent

## Technical data

Temperature range: -50°C to +85°C

## Note

Other materials or colours on request.

## Properties

- Plant and machine construction
- Robot construction
- Automation technology
- Vehicle construction and shipbuilding
- Rail technology
- Installation technology
- Control cabinet construction
